1. **This kitten has been vaccinated for his/her 8-week shots on _____ and will be due for his/her next shots on _____. This kitten was also wormed on _____.**
2. **This kitten needs an annual booster each year beginning _____.**
3. **Male Savannahs are assumed to be sterile for 3-4 generations and are sold as pets.**
4. **This kitten is being fed _____.**

Health Guarantee

This kitten is guaranteed to be of sound health upon arrival. It is guaranteed for a period of 72 hours from the time of arrival if veterinarian-checked within that time. It is recommended that the kitten be in quarantine during this time. If it is found to be medically deficient with an untreatable or life-threatening problem, it must be reported to the seller immediately. Upon its return, it will be replaced with another kitten of equal value or the entire purchase price will be refunded after the veterinarian certifies the health deficiency. Veterinary costs are not refundable. If no replacement is available at that time, the seller has 6 months to furnish satisfactory replacement. The kitten cannot be returned after the guarantee period has expired and/or it has been exposed to another cat which has not been currently tested for FeLV and FIP. This contract is legally binding to all parties involved. It applies to the buyer and seller in this transaction and is non-transferable to other parties.
